

EROTON E & P COMPANY LIMITED

Operator of the OML 18 Asset

RC1137060

TENDER OPPORTUNITY FOR INTERCONNECTING PIPELINE (BUGUMA CREEK – KRAKAMA FLOWSTATION – CAWTHORNE CHANNEL 3 (EEP18-0098) NipeX Tender Number: 100004518

1. Introduction

EROTON E&P Company Limited; the operator of NNPC/Eraton JV invites interested and reputable contractors with suitable equipment and relevant experience to tender for the laying of carbon steel crude evacuating pipeline from the Krakama manifold pig launcher to the pig receiver at Cawthorne Channel 3 flowstation.

2. Scope of Work

The Scope of work covers the underlisted services:

- (a) 8-inch x 7.2km Carbon steel crude evacuating line extending from the Krakama manifold pig launcher to the pig receiver at Cawthorne Channel 3 flow station, and installation of pipeline end manifolds (PLEM) and pig trap system.
- (b) Production of Detailed Engineering Design package.
- (c) Ancillary piping for connection of pig trap systems to PLEMs.
- (d) Creek crossings, waterway crossings and river crossings.
- (e) Pipeline crossings.
- (f) Road crossings.
- (g) Cathodic protection systems for the Carbon steel crude evacuation pipelines.
- (h) Baseline intelligent pigging, coating survey and cathodic protection survey.
- (i) Procurement and installation of pipeline valves, barred tees, SDVs, and associated instrumentations in addition to all other long lead items required for the project during or upon completion of route verification survey and detail design work.
- (j) Pipe supports and other civil scopes.
- (k) Coating the Carbon steel line pipes at joints using external 3-layer Polyethylene anti-corrosion coating.
- (l) Tie-ins at CAWC 3 flowstation with associated instrumentations
- (m) Engineering, procurement and installation of block valves on the pipelines at major river crossings including installation of a high-security citadel cage over the block valves.
- (n) Concrete weight coating for buoyancy control on the carbon steel pipeline.

The contract duration shall be for a period of two (2) years primary period plus one (1) year optional extension.

3. Mandatory Requirements

- To be eligible for this tender exercise, interested contractors are required to be pre-qualified in the **4.05.04 Pipeline Systems** categories of the NipeX Joint Qualification (NJQS) Database. All successfully pre-qualified suppliers in this category will receive Invitation to Tender (ITT).
- To determine if you are pre-qualified and view the product/service category you are listed for: Open <http://vendors.nipex-ng.com> and access NJQS with your log in details. Click on Products/Services Status tab to view your status and product codes.
- If you are not listed in a product/service category and you are registered with DPR to do business, contact NipeX office at 8, Bayo Kuku Street, Ikoyi Lagos with your DPR certificate as evidence for verification and necessary update.
- To initiate the JQS pre-qualification process, access www.nipex-ng.com, click on services tab followed by NJQS registration.
- To be eligible, all tenderers must comply with the requirements of the Nigerian Oil and Gas Industry Content Development Act, 2010. Non-compliance shall result in disqualification from bidding for this opportunity.

4. Nigerian Content

Bidders are to note that they will be requested during the technical tender to give full details of their relevant strategy to ensure that they fully comply with provisions of the Nigerian Oil and Gas Industry Content Development (NOGICD) Act 2010. Consequently, bidders' submissions shall be evaluated strictly with the minimum evaluation criteria defined in 'The Act'. Failure to meet the Nigerian Content requirements is a **"FATAL FLAW."**

In line with the above, Tenderers responding to this advertisement are required to submit the following in compliance with the Nigerian Content Act, 2010:

1. A Nigeria Content Execution Plan, which shall explain the methodology of how it intends to comply with the requirements of the Plan, and how to achieve the set target(s) in the Schedule of Nigerian Oil & Gas Industry Content Development Act, and any targets set by the Nigerian Content Monitoring Board.
2. Demonstration that the entity is a Nigerian Registered Company, or Nigerian Registered Company as the contracting entity in genuine alliance or joint venture with foreign company with details on scope and responsibilities of parties for this work. Such companies must show evidence of joint venture binding agreement duly signed by the CEO of both companies including evidence or plans of physical operational presence and set-up in Nigeria.
3. Development of a Technology Transfer Plan which shall explain the methodology of how it intends to promote the effective transfer of technologies from alliance partners to Nigerian individuals and companies.
4. Development of an employment and training plan which shall explain the contract hiring and training needs with a breakdown of the skills needed and anticipated skill shortage in the Nigerian labour force.
5. Development of plan for the procurement of goods and services manufactured in Nigeria.
6. Demonstration of a plan for the utilization of third-party services of Nigerian origin and Nigerian sub-contractors in executing the work.
7. In line with the NCD Human Capacity Development Initiative, Bidder shall commit to providing Project-Specific training, man-hour, budget, skill development and understudy plan for Nigerian personnel utilizing OGTAN registered trainer(s) or other approved NCDMB training institution(s).
8. For projects that entails Research and Development, develop a Research & Development Plan which shall explain the methodology of how it intends to promote education, attachments, training, research and development in Nigeria in relation to the contract.
9. Possession of a Nigerian Content Equipment Certification (NCEC) for OEM equipment to be supplied in delivering the service to the contract.
10. Any other requirement in relation to the work scope

Note: Land and Swamp operations are exclusively for Nigerian indigenous service companies that have a minimum of 51% equity shareholding.

5. Closing Date

- Only Tenderers who are registered with NJQS Product/category **(4.05.04 Pipeline Systems)** as at **May 28, 2020** being the advert close date shall be invited to submit Technical and Commercial Bids.

6. Additional information

- Interested suppliers must be pre-qualified for this product/service category in NJQS.
- Full tendering procedure will be provided only to contractors that have been successfully pre-qualified in NJQS.
- This advertisement shall not be construed as a commitment on the part of EROTON to award a contract to any supplier and/or associated companies, subcontractors or agents.
- This advertisement shall not entitle pre-qualified companies to make any claims whatsoever and/ or seek any indemnity from EROTON and/ or its partners by virtue of such companies having been pre-qualified in NJQS.
- All costs incurred in registering and pre-qualifying for this and other products/ services categories in NJQS shall be borne solely by suppliers.
- Suppliers that are pre-qualified for this product/service category in NJQS must ensure that the name and contact details (physical address, email address and telephone numbers) of their company and authorised/responsible personnel is up to date in their company profile in the NJQS data base.
- EROTON shall communicate only with the authorised/responsible personnel of pre-qualified companies and not through unauthorised individuals or agents.
