ADVERT FOR TENDER OPPORTUNITY

WELL SAND CONTROL COMPLETION EQUIPMENT AND SERVICES (GRAVEL PACK) TENDER FOR NAOC JV NipeX Shopping Cart No. 1000003405

1. INTRODUCTION

The Nigerian Agip Oil Company limited (NAOC) has a requirement to issue WELL SAND CONTROL COMPLETION EQUIPMENT AND SERVICES (GRAVEL PACK) contract for the Scope of Work identified below on NAOC land and swamp area wells for two (2) years firm period each plus one (1) year optional extension.

NAOC therefore invites submissions for the purpose of technical evaluation from suitable and reputable companies having the capability and experience to undertake the under defined scope of work:

2. SCOPE OF WORK

The work will comprise of Well Sand Control Completion Equipment and Services (Gravel Pack) for NAOC wells in land and swamp areas.

The Sand Control Service includes the following stages:

- Co-operation with mud service COMPANY to define mud characteristics (planning phase) in case of open hole operations;
- Casing washing;
- Setting and recovering down hole equipment; Preparing and filtering fluids;
- Sand Control operations;
- Acquiring and interpreting field data;
- Preparing a final Job Report with remarks and assessment of the work carried out and an indication of whether the targets set by the program have been reached or not.

The sand control systems will use a wide range of different completion types for 5", 7", 9" csg sizes in vertical, deviated and horizontal wells.

The potential completion types are:

1. Open Hole Gravel Pack (OHGP).
2. Expandable Sand Control Completion (ESCC).
3. Stand Alone Screen (SAS).
4. Inside Casing Gravel Pack (ICGP).
5. Cased Hole Frac Pack (CHFP) if carried out in fracture conditions, controlling the dimensions of the fracture using viscosified and non-viscosified fluids.

Multiple stacked sand control completions have to be considered with 2", 2", 3½", 5", 7" tbg sizes in single and dual upper completion therefore, the upper completion design and components will be standardised as far as possible for all types of well. Failure to meet any of these requirements shall lead to outright disqualification.

CONTRACTOR shall conform to ISO 9000 series International Standard. All the activities shall be carried out with minimum impact on the environment and maximum care of health and safety of all concerned, directly or indirectly, with the activities.

3. MANDATORY REQUIREMENTS

To be eligible for this tender exercise, interested contractors are required to be registered in the following Product/Service Categories in the NipeX Joint Qualification System (NJQS) database:
