## NipeX OPERATIONS: JQS & eMARKETPLACE

The Joint Qualification System (JQS) is designed to pre-qualify Suppliers registered in Nigeria. It increases efficiency and instills integrity in the pre-qualification process of the Nigerian oil and gas industry.

The eMarketplace is a collaborative environment that delivers significant value to all Stakeholders in the contracting process through a comprehensive suite of capabilities.

### HIGHLIGHTS

- NipeX is 10 years old (from Dream to Reality)
- NipeX has reached its milestone of developing a new software which it owns for the NJQS
- The New NJQS software program is more interactive and responsive to meet User needs
- NipeX commences with its train the trainer in anticipation of SAP 7.0 Go Live

**Note:**

- a. Please access the NipeX site preferably with Google chrome or Mozilla. Internet Explorer is not recommended for this site
- b. Document for upload should only be 'PDF' and 'jpeg' files format
- c. If there are issues with documents at the quality checking stage, an email will be received by the supplier on the status of the document with an option to re-upload the concerned documents

**Role of NipeX in the Petroleum Industry**

**A bit about NipeX**

NipeX is an integration of the Joint Qualification System (JQS) and eMarketplace. It is designed to facilitate the contracting process by reducing the contract cycle time in the Upstream sector of Nigerian Oil and Gas Industry.

The five departments in NipeX are: eMarket Operations, Joint Qualification System (JQS), Finance and Services (F&S), Information Technology (IT) and Customer Relations & Marketing (CRM). While JQS and eMarket are directly involved in operating the NipeX system, IT, CRM and F&S are critical success factors in the provision of robust infrastructure and support services for ensuring optimal operations.

**Why NipeX was set up?**

NipeX came up live in Dec. 2005 and was officially launched in 2006 to provide an electronic platform for fast, efficient and transparent supply chain transaction between the Buyers of goods and services and their Suppliers. Hitherto, the contracting process was predominantly manual with a prolonged contracting cycle time, huge administrative workload as well as the inability to successfully monitor Nigerian content development in the upstream sector.

**What NipeX has Achieved So Far**

**i.) NipeX Software Development:**

Over time, NipeX developed varied software to enhance its infrastructure suites. The developments are not limited to the following:

- a. NipeX new website: [www.nipex-ng.com](http://www.nipex-ng.com)
  - b. NipeX Joint Qualification System (NJQS) web application and database
  - c. NNPC Vendor Management System (SCM, Abuja)
  - d. NipeX Co-location Project: SAP SRM, SAP Portal, SAP BW/BI, SAP ERP and London Data Centre
- ii.) **Interns Training:** From inception, at least fifty (50) Interns have received advanced computer based training from NipeX which includes coding, software development and hardware solutions.

**What NipeX looks forward to achieving in the near future**

In the near future, NipeX looks forward to becoming the contracting & procurement hub in the Nigerian Oil & Gas industry. It also aims to be the reference point in Supply Chain Management activities in Nigeria.

**NipeX Stop Gap Close-Out Audit**

A stop gap process has been put in place in the interim to manage outstanding close-out audit for Suppliers who have been audited but had non-conformities.

This close-out will handle only document related issues. Suppliers who need to do a close-out are required to provide the following to NipeX:

- 1. Signed Audit non conformity report
- 2. All outstanding documentary requirements
- 3. NipeX JQS will process such request as appropriate and effect close-out
- 4. The change status will then be communicated to the relevant Supplier

**NipeX NEWS**

**New NipeX Service offerings**

**Third (3rd) Party Advert Placement on NipeX Portal:**

**Objective:** It is to meet the need of NipeX customers who wish to utilize the exposure offered by our vantage portal to create awareness for their products /services.
