

CHEVRON NIGERIA LIMITED

R. C. 6135

OPERATOR OF THE NNPCL/CHEVRON JOINT VENTURE

TENDER OPPORTUNITY

PROVISION OF OFFSHORE PIPELINES SURVEY AND INSPECTION SERVICES

NipeX Tender No – CNL.00000249

1. INTRODUCTION:

Chevron Nigeria Limited, Operator of NNPCL/CNL Joint Venture, invites interested and prequalified indigenous companies for this tender opportunity for the provision of Survey and Inspection Services for CNL Pipelines and Production Assets. The Survey and Inspection service is to ensure the integrity of CNL's pipeline network and other fixed equipment in compliance with the Nigerian Upstream Petroleum Regulation Commission (NUPRC) regulations.

Successful bidder(s) are required to perform survey and inspection services for pipelines and other production assets belonging to various Chevron entities registered in Nigeria.

The contract is proposed to span a period of three (3) years with a possible optional term of one (1) year duration.

2. SCOPE OF WORK:

The scope of work shall include but not limited to the supply of all required marine vessels, vehicles, equipment, personnel, and supervision required to carrying out the following:

- Evaluation of the effectiveness of the pipeline Cathodic Protection systems and identification of pipeline locations where cathodic potential is out of the acceptance range.
- Seabed condition: including location and evaluation of any indications of seabed disturbance (scarring), significant debris, or anomalies that may present hazard to the pipelines.
- Pipeline geographical position information, including start of pipeline coordinates, bearing and distance of each segment of the line, radii, pipeline crossing coordinates and end of pipelines coordinates.
- Determination of pipeline orientation and support features, including length of free spans, physical conditions, and extent of any physical damage to pipelines.
- Pressure boundary fixed equipment API 510, 570, 579, 653 in-service inspections
- Conventional non-destructive (UT, MT, PT, and VT) examinations and inspection services
- Advanced non-destructive (PAUT, PEC, GUL, MFL) examinations and inspection services
- Profile and digital radiography inspection technologies
- Risk-Based Inspection (RBI) / Integrated Consequence Assessment (ICA) consultancy services
- Survey and inspection services for Subsea facilities using ROV technology.
- Facility topside (structural) inspection services
- Mechanical integrity / inspection engineering services
- Temporary leak repair engineering services
- Provision of marine vessels to support offshore pipeline survey and inspections, and ROV inspections.

3. MANDATORY TENDER REQUIREMENTS:
