

STAR DEEP WATER PETROLEUM LIMITED

A Chevron Company

OPERATOR OF THE AGBAMI UNIT (OML 127/128)

TENDER OPPORTUNITY PROVISION OF INTELLIGENT WELL COMPLETION SERVICES

NipeX Tender: STARDEEP.0000090

1. INTRODUCTION:

Star Deep Water Petroleum Limited ("SDWPL"), a Chevron company and operator of the Agbami field on behalf of its co-venturers (FAMFA Oil Limited, Prime 127 Nigeria Limited, Equinor Nigeria Energy Company Limited and Nigerian National Petroleum Company Limited (NNPCL)), invites interested and prequalified companies with relevant experience in the Provision of Intelligent Well Completion Services.

The contract is proposed to span a period of three (3) years with a possible optional term of one (1) year duration.

2. SCOPE OF WORK:

Contractor shall be able to provide Intelligent Well Completion (IWC) products, equipment and services for production and injection well applications including CRA materials as requested by COMPANY, including but not limited to:

- Tubing and splice mandrels, inclusive of all hydraulic and electrical splice assemblies, tubing/line disconnect assemblies, feed through packers.
- Downhole Pressure, Temperature and Flowmeter instrumentation.
- Choke valves with control line filters and isolation sleeve preps top and bottom, shrouded choke valves with control line filters.
- Unitized IWC control lines - types A & B, production clamp sets.
- Instrumentation interface cards for SEV supplied SEM, SCITT supplied SMCS.
- Software to interface with SEV-MCS, and SCITT-MCS.
- IWC - PC.
- Wireline running / pulling tools.
- Hydraulic connectors.
- All downhole completion systems must be capable of sweet and sour corrosion service, and of direct impingement and shear loads caused by solids laden fluids, at rates from 100 to 75k bpd w/o detriment to wellbore integrity.
- 10 years or longer MTTF completion components, proven via maintenance / redress records, and global run history per subsystem.
- Proven accelerated life testing of all moving (ICVs, retrieving mechanisms, etc) components.
- Personnel rig experience in IWC = min. 5 IWC jobs performed in DW with sand control.
- Proven single - service integration and installation of integrated control valves systems with downhole gauge systems with downhole packer systems.
- Contractor will supply a Quality Plan outlining procedure to ensure that Company receives equipment that has been properly prepared for utilization. Dedicated QA personnel will be supplied by contractor to ensure rigorous adherence to contractor's Quality Plan. The Quality Plan will define shop equipment required to makeup and test completion equipment prior to shipment offshore.

These services must be provided in strict accordance with SDWPL's established Standard Operating Procedures with a strong emphasis on safety and protection of people and the environment.

3. MANDATORY TENDER REQUIREMENTS:

- A. To be eligible for this tender exercise, interested bidders are required to be **pre-qualified and "live"** in the **3.04.17 (Well Completion Services)** category of the NipeX Joint Qualification System (NJQS) database.
