- Pumps packages and ancillaries' diagnostics, trouble shooting and / or emergency inspection.
- Corrective and Preventative maintenance
- Engineering Assistance on Pumps

- Provision of SME level OEM certified Field Service Representatives (FSR) and Technicians services to support COMPANY owned and operated fleet of Pumps in COMPANY's Escravos Terminal Onshore and Offshore areas of Operation.

- Provide Formal and "On the Job" OEM certified technical training to COMPANY personnel conducted at CONTRACTOR and COMPANY facilities.

1. Minimum Acceptable Facilities and Equipment

CONTRACTOR is required to provide all the facilities, equipment and specialized tools that are required to overhaul and test each of the Pumps product models to meet OEM Engineering Specifications. COMPANY has no such facilities and makes no provision for such facilities.

Pumps Overhaul Facility

- Pumps overhaul bays to accommodate all models of Pumps (see PUMPS IN ESCRAVOS OPERATIONS 3).
- Specialized NDT testing of Pumps components.
- Specialized balancing machinery.
- Specialized Pumps alignment machinery.
- Specialized jigs and tooling for each of the Pumps models.
- Specialized Pumps lifting and handling equipment.
- See technical checklist document for the minimum requirement of the overhaul shop and tooling.

Pumps and Package Testing Facility

- Test cells with capability for the product range.
- Capacity for testing rebuilt pumps to validate OEM pump performance curve specification for full range of the product line.
- Specialized jigs and simulation equipment
- Centrally controlled computerized test cell monitoring and diagnostics

Training Facilities

- Classroom training facilities located in vicinity of the overhaul and testing facilities.
- Computer and workstations to accommodate 10 peoples.
- Student accommodations
- Pumps and major component cut-away training aids.
- Pumps control panel simulators to support both earliest and latest generation OEM systems.
- Dedicated training staff
- See technical checklist document for the minimum requirement of the training facilities.

Field Facilities

- Specialized equipment and tooling for small Pumps component: overhaul and testing
- Pump flow test bench
- Pump performance curve test bench
- Pumps handling equipment for freight forwarding.
- Warehouse and inventory management system
- Pumps mechanical seals lapping equipment.
- Specialized Pumps diagnostic, testing and calibration equipment for field use.
