

NIGERIAN AGIP OIL COMPANY LIMITED
Operator of the NNPC/NAOC/OANDO Joint Venture

TENDER OPPORTUNITY:
PROVISION OF SOLID CONTROL EQUIPMENT AND SERVICES FOR NAOC JV LAND AND SWAMP OPERATIONS
NipeX Tender No. 100006589

1. INTRODUCTION

The Nigerian Agip Oil Company limited (NAOC) has a requirement to issue SOLID CONTROL EQUIPMENT AND SERVICES contract for the Scope of Work identified below on NAOC land and swamp area wells for three (3) years firm period and two (2) one (1) year optional extensions.

NAOC therefore invites submissions for the purpose of technical evaluation from suitable and reputable companies having the capability and experience to undertake the under defined scope of work:

2. SCOPE OF WORK

Contractor shall supply and change-out / install, operation, servicing and maintenance Solids Control Equipment and ancillary equipment, tools and hoses (Shale Shakers, HI-G Dryers, Screens, Single or Dual centrifuges on-line system) on board of the rig for Company drilling operations in Nigeria.

This Work shall be performed in accordance with the specifications contained here-in and the Contract in general.

It is of utmost importance to carry out all activities with minimum impact on the environment and maximum care of health and safety of all concerned, directly or indirectly, with the activities.

General Description

The Contractor shall perform the work in accordance with Company operating instructions or Contractor's written operating instructions approved by Company, utilizing its own know-how and operating experience.

Contractor shall plan, direct, supervise and control operations of Solids Control Equipment. Consequently Contractor shall:

- a) Perform Solids Control operations and associated services including but not limited to operating, servicing, maintenance and testing of all items of equipment and ancillary and optional equipment in accordance with the well specifications on a day-rate basis or on an Incentive basis as described herein;
- b) Provision of high volume, variable speed centrifuges with associated feed pumps, high speed cuttings dryers, feed pumps, effluent tanks, screw augers and other equipment necessary for reducing oil on cuttings emissions and potential zero fluid discharge operation.
- c) Furnish all equipment, labor, materials for installation of solids control equipment and associated piping onto the selected drilling rig.
- d) Provision of experienced onshore/swamp solids control technicians for solids control system monitoring, maintenance and repair of equipment provided and integrated drilling fluid system planning.
- e) Furnish all equipment, materials and services specified
- f) Provision of shaker screen inventory for rig based shakers.
- g) Carry out and co-ordinate all onshore storage and transport of Contractor Items and Personnel, to and from the Company Supply Base and to and from Rig Site ;
- h) Execute all work in connection with this Scope of Work.

Failure to meet any of these requirements shall lead to outright disqualification.
