## NipeX OPERATIONS: JQS & eMARKETPLACE

The Joint Qualification System (JQS) is designed to pre-qualify Suppliers registered in Nigeria. It increases efficiency and instills integrity in the pre-qualification process of the Nigerian oil and gas industry.

The eMarketplace is a collaborative environment that delivers significant value to all Stakeholders in the contracting process through a comprehensive suite of capabilities.

## Our Vision

To provide an industry platform for fast, efficient and transparent supply chain transactions.

## Our Mission

Build transaction confidence in the supply of goods and services in Nigeria's oil and gas industry by continually adapting to the needs of customers and other Stakeholders.

## NipeX STATUS UPDATE As @ JUNE 30, 2022

### Contract Tender Status in NipeX

Opportunity Phase	486
Technical Phase	595
Commercial Phase	1056
Winner Bid/concluded	971

## ACCESSING THE NipeX SYSTEM

### IMPORTANCE OF THE NipeX TENDER ADVERT REVIEW PROCESS

#### OPPORTUNITY PHASE OF THE TENDER PROCESS-THE ROLE OF NipeX.

NipeX is the gatekeeper of the opportunity phase of the tendering process which is foundational to the achievement of the objectives of the tendering process. The task of gatekeeping can only be performed when the tender draft adverts and other relevant documents are submitted for NipeX review. The opportunity phase of the tendering process is pivotal to the realization of the objectives of placing the tender in the first instance.

NipeX performs the tasks of a gatekeeper to ensure that the tenders are approved by both NAPIMS & NCDMB and that the tender adverts are consistent with the template approved by the NipeX Steering Committee.

Tender draft adverts are submitted by Operators for NipeX review to ensure compliance with laid-down guidelines. This is done to forestall missteps and mishaps with their attendant consequences.

#### WHY ARE TENDER ADVERTS & RELATED DOCUMENTS REVIEWED?

The importance of the NipeX tender advert review includes:

1. Ensuring that tender adverts are in line with the mandate of the NipeX steering committee.

2. Ensuring that adverts are in conformance with the approved industry template so that the required information can be gleaned easily from it.
3. Confirmation of the correctness of crucial information like product codes, vendor URL, web and physical addresses, etc. These would enable the target audience to act accordingly and without preventable hitches.
4. Approved tender adverts after review would be uploaded on the portal and be visible to a wide range of suppliers, ensuring universal access to opportunities
5. It affords operators the privilege of receiving continuous assistance from NipeX on the publication of tender adverts.

#### IMPLICATIONS OF PUBLISHING AN UNREVIEWED TENDER ADVERT.

The Implication of tender adverts published in selected National Dailies without NipeX review includes that tender may not have been approved by either NCDMB or NAPIMS (or even by both), the content of the advert, like product codes and NipeX portal and physical address may all be wrong.

Consequently, such a tender ends up stalled or mired in controversies and possibly litigation.

In addition, a tender advert that is not published on the NipeX portal leaves a significant number of pre-qualified suppliers disenfranchised. Thus, negating the TAPE agenda of the NNPC and transparency requirements of NEITI.

**Current Tender Advert Opportunities in NipeX System**

Name of Operator	Title of Advert	Closing Date
SPDC	<a href="#">Provision And Maintenance Of Third-Party Software</a>	<a href="#">01/07/22</a>
