NipeX OPERATIONS: JQS & eMARKETPLACE

The Joint Qualification System (JQS) is designed to pre-qualify Suppliers registered in Nigeria. It increases efficiency and instills integrity in the pre-qualification process of the Nigerian oil and gas industry.

The eMarketplace is a collaborative environment that delivers significant value to all Stakeholders in the contracting process through a comprehensive suite of capabilities.

ACCESSING THE NipeX SYSTEM

Effective Way to Maximize Tender Adverts on NipeX System

By default, the homepage of NipeX system is accessed via: www.nipex-ng.com. This page does not require any access login details. It allows the public to view the un-secured area of the portal, i.e. viewing tender opportunities in the industry, NJQS registration requirements, NipeX bi-monthly newsletter and other generic information.

Key Points on Tender Adverts on the Portal:

i. A Tender advert that the closing date is yet to elapse in the NipeX portal is not a request to all suppliers in NJQS database to respond immediately by submitting their bids.

ii. Effective January 2010, Adverts published changed from "Invitation for Pre-qualification" to "Tender Opportunity".

iii. Tender opportunities are advertised by the Operators when there is a need to purchase a product/service that is above their approval threshold Upon receipt of the necessary approvals from NNPC, the Tender adverts run concurrently on the NipeX portal and in select Nigerian newspapers for fifteen (15) working days.

iv. The published adverts on the NipeX portal provide Suppliers with increased access to business opportunities in the Upstream Sector of the Nigerian Oil & Gas industry. They are categorized into two (2), viz: current and archived oppor-

tunities.

v. The current opportunities are tender adverts that eligible Suppliers can participate in before the closing date. While the archived opportunities are tender adverts whose closing dates have past and no longer open to Suppliers for participation.

Who is eligible to participate in advertised tender opportunities?

Only Suppliers who are Pre-qualified and 'Live' with the relevant NJQS Products / Services codes and category as at the advert close date of the specific advertised tender shall be eligible and invited to submit Technical Bids and then Commercial bids if technically qualified.

Tips for Pre-qualified Suppliers participating in advertised tender opportunities:

a) Ensure you do not allow your NipeX subscription to expire before renewal. Your company status in NipeX should always read 'Live' and never 'Expired'.

b) Ensure you annually update your company information e.g. renewed DPR certificate that covers all your product codes, contact details and address etc

c) Ensure you access your NipeX box at least thrice a week to view Bid invitation

d) Adhere to the Password policy when changing passwords for Log in.

e) Respond to bids as early as possible. Do not wait for the last day (Submission deadline) .
